CVE Program CNA Policy and Procedure for Inactive CNAs

Policy for Inactive CNAs

Active CNA participation is critical for the CVE Program to achieve its adoption, coverage, and time-to-populate goals. Active CNAs assign and populate CVE Entries within a distinct, agreed upon, and documented scope (hereafter referred to as scope). By assigning and populating CVE Entries, CNAs expand CVE Program coverage and adoption, and are critical actors in federating CVE program operations. Active CNAs may also participate in various working groups and discussions to advance CVE Program objectives.

Inactive CNAs may be problematic for the CVE Program because adoption and coverage may not be achieved within a scope, even though such a scope is assigned to a CNA. However, inactive CNAs may be inactive for legitimate reasons, such as no new vulnerabilities are identified within a scope and, once identified, normal assignment and population activities are resumed. There are also illegitimate reasons for CNA inactivity, such as the CNA is no longer interested, properly resourced, or competent to participate in the CVE Program as a CNA. CNAs that are inactive for legitimate reasons may continue to participate in the CVE Program. CNAs that are inactive for illegitimate reasons may not continue to participate in the CVE Program, unless the reasons for inactivity are satisfactorily remediated.

Inactive CNAs are identified as those CNAs, over the preceding six-month period, that have not assigned or populated CVEs within a scope, and have not participated in various working groups and discussions to advance CVE Program objectives. Inactive CNAs must be identified so that 1) the reason(s) for inactivity are determined; and 2) appropriate next steps are taken.

Procedure for Contacting Inactive CNAs

1. Attempt to contact the CNA using all available contact information to determine the reason(s) for the inactivity and appropriate next steps; use the following message:

<CNA NAME/POC> Active participation in the CVE Program is necessary to retain CNA status. Our records indicate that <CNA NAME> is currently inactive (i.e., over the preceding six-month period, CNA has not assigned or populated CVEs within a scope, and/or has not participated in various working groups and discussions to advance CVE Program objectives). Please let us know the reasons for the inactivity by <DATE plus 2 weeks>.

We look forward to hearing from you soon.

If contact is made within two weeks, follow the [Received Reason for Inactivity](#) instructions. If contact is not made, proceed to step 2.

2. Two weeks after taking step 1, attempt to contact the CNA again (replying to the email submission from step 1) using the following message:

<CNA NAME/POC> The CVE Program's CNA Coordination Team contacted you on <ENTER DATES HERE> to determine the reason for <CNA NAME's> inactivity within the CVE Program. Active participation in the CVE Program is necessary to maintain CNA status. Please let us know the reasons for the inactivity by <DATE plus 2 weeks>.

We look forward to hearing from you soon.

If contact is made within two weeks, follow the [Received Reason for Inactivity](#) instructions. If contact is not made, proceed to step 3.

3. If contact is not made within two weeks of the step 2 communication, warn the CNA that it will be removed from the CVE Program within two weeks if they do not respond (replying to the email string from step 2); use the following statement:

<CNA NAME/POC> The CVE Program's CNA Coordination Team contacted you on <ENTER DATES HERE> to determine the reason for <CNA NAME's> inactivity within the CVE Program. Our records indicate that <CNA NAME> is currently inactive because <ENTER REASONS HERE>. Active participation in the CVE Program is necessary to maintain CNA status. If the CVE Program's CNA Coordination Team does not hear from you by <ENTER DATE HERE>, your CNA status will be revoked, which means that <ENTER CNA NAME HERE> will no longer be authorized to assign or populate CVE entries, and will be removed from the CNA roster, CNA-specific communication, and applicable working groups.

Should your CNA status be revoked, you are eligible to reapply to become a CNA in the future, provided you complete the CNA onboarding process.

We look forward to hearing from you soon.

If contact is made within two weeks, follow the [Reason for Inactivity](#) instructions. If contact is not made, proceed to step 4.

4. Two weeks after step 3, if contact is not made with the CNA, inform the CNA that its CNA status is hereby revoked respond (replying to the email string from step 3), using the following statement:

<CNA NAME/POC> The CVE Program contacted <CNA NAME> on <ENTER DATES HERE> to determine why <CNA NAME HERE> is inactive within the CVE Program. Responses to those communications were not received. Per the last communication, sent on <ENTER DATE HERE AND ATTACH THE STEP 3 EMAIL COMMUNICATION TO THE EMAIL> <ENTER CNA NAME HERE> CNA status is hereby revoked. This means that <ENTER CNA NAME HERE> is no longer authorized to assign or populate CVE entries, has been removed from the CNA roster, CNA-specific communication, and applicable working groups.

<ENTER CNA NAME HERE> are eligible to reapply to become a CNA should the organization's circumstances change. Should <ENTER CNA NAME HERE> want to be a CNA in the future, please contact <ENTER CONTACT INFORMATION HERE>.

Thank you for past service to the CVE Program.

5. Next step is to follow the MITRE CNA removal process to remove the organization as a CNA.

Reason for Inactivity

1. No longer wants to participate: Follow the CNA Removal Process.
2. Legitimate: Document the reason(s) for inactivity and notify the Lead CNA Coordinator, CVE team members, and the CVE Board.
3. Illegitimate: Document the reason(s) for inactivity and any corrective action that may be required. Notify the Lead CNA Coordinator, team members, and the CVE Board.
